At Rosebourne, we take lifestyle choices and dietary requirements very seriously and understand that this includes the awareness of nutritional intake especially calories. As a guide our menus display the Kcal in the dish or drinks, our hot drinks Kcal value is with semi skimmed milk and wheat bread in dishes.

Dishes described may include nuts, and other allergens please inform us of any allergens or dietary requirements. Detailed allergen information is available, please be aware we produce and make our food in our kitchens where allergens are present in the environment.

Time for Tea

There is nothing more refreshing than a lovely cup of tea. Our range of specialist teas, from Birchall Teas, are sourced exclusively from estates across East Africa, where the very best teas are to be found. Having been around since 1872 Birchall Teas have a long heritage of tea blending and by not compromising on quality at any stage every single cup is perfect every time. What's more, is that the teas are blended and packed in Andover. Choose from English Breakfast, Afternoon Tea, Darjeeling, Early Grey and Decaffeinated.

Afternoon Tea

“There are few hours in life more agreeable than the hour dedicated to the ceremony known as afternoon tea.”

Henry James

Afternoon tea, the most quintessential of English traditions, dates back to the mid 19th century. In 1840 it was the Duchess of Bedford that first asked for a tray of tea, bread, butter and cake to be brought to her in the late afternoon – to fill the gap between lunch and dinner. This became a habit of hers and she invited friends to join in leading to the development of this fashionable social event that is still enjoyed today.

Reducing our environmental impact:

As part of our ongoing activity to lessen our impact on the environment we are moving away from using glass bottles for soft drinks, beers and wines in our restaurants. This switch to aluminium cans is better for the environment with a lower carbon footprint as aluminium can be endlessly and easily recycled.
